COMMERCIAL OFFER

Ukrainian manufacturer and exporter
“TRADE HOUSE “LATYMER” offers high-
quality fiberglass mesh (E-glass)
www.latymer.ua

WHY CHOOSE US?

Latymer is one of the largest manufacturers of construction glass fibre mesh in Ukraine. The production capacity of our enterprise is up to 12mln m2 of mesh per year.

The company's products have European certificates of conformity (ETA, FPC) and are labeled with the CE mark.

The LATYMER quality management system is certified in accordance with ISO 9001:2015.

We guarantee consistent product quality. The production uses European primary raw materials: E-glass fiberglass, Halten Stark adhesive dispersion.

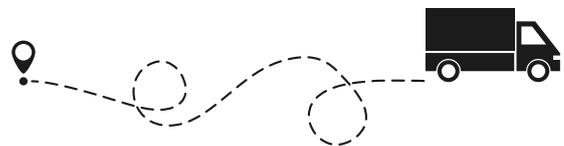

The company produces its own product lines and also creates exclusive products under the customer's brand and logo (Private Label).

We build long-term partnerships and are characterized by flexibility and individual work with each client.

DELIVERY CONDITIONS

- 100% prepayment
- rolls are packaged in a box on a pallet
- there are 64 boxes in a truck
